

**Parks and Recreation Commission
Regular Meeting
January 14, 2026, 8:00 AM
Meets virtually via Microsoft Teams**

Agenda

1. Call to Order

- 1.1. Attendees, please use meeting courtesy. Virtual attendees are asked to mute microphones when joining the meeting. Participants may be muted by the Town Clerk, and meetings will be recorded.

[Join the meeting now](#)

Meeting ID: 243 919 874 610 21

Passcode: r24UL73u

(Calendar Year 2026)

2. Approval of Minutes

- 2.1. Approval of minutes from meeting on November 12, 2025.

3. Matters of Discussion

- 3.1. Wills Park Trail and Amphitheater

4. Matters of Information

- 4.1. Wills Park Playground Update

5. Adjourn

- 5.1. Adjournment

COUNCIL OF THE TOWN OF LA PLATA
Resolution 24-08

Introduced By: Mayor Jeannine E. James, by request
Date Introduced: March 26, 2024
Date Adopted: March 26, 2024
Date Effective: March 26, 2024

1 A RESOLUTION concerning

2
3 **Wills Memorial Park Trail and Amphitheater Project**

4
5 **FOR** the purpose of authorizing the Town Manager to enter into a contract agreement for the
6 design and build of a recreational trail and amphitheater at Wills Memorial Park; and all
7 matters generally relating thereto.

8
9 * * * * *

10
11 **WHEREAS**, the Town recognizes the key contribution that high quality parks and open
12 spaces make to community health, wellness, and quality of life; and

13
14 **WHEREAS**, the Town of La Plata Parks and Recreation Commission identified a plan for
15 the redevelopment of Wills Memorial Park in the Town's 2011 Comprehensive Parks and
16 Recreation Master Plan (CPRMP); and

17
18 **WHEREAS**, the opportunity to execute certain components of the redevelopment of Wills
19 Memorial Park as specified in the CPRMP was identified in the American Rescue Plan Act
20 ("ARPA") budget development process and funding for this purpose was included in the adopted
21 ARPA budget; and

22
23 **WHEREAS**, Town Charter § C8-23 requires that all expenditures in excess of twenty
24 thousand dollars (\$20,000), shall be advertised for sealed bids, except for expenditures which the
25 Town Council, by ordinance, has determined are not subject to the sealed bid requirements; and

26
27 **WHEREAS**, the Town solicited potential service providers via an open competitive
28 bidding process consistent with Town procurement policies but received no bids; and

29
30 **WHEREAS**, federal procurement policies relevant to the expenditure of ARPA funds
31 allow for the award of a non-competitive contract if competition is determined inadequate after
32 solicitation of several sources; and

33
34 **WHEREAS**, S E Davis Construction, LLC, a minority woman-owned general contracting
35 firm with headquarters in the incorporated town limits has demonstrated qualifications appropriate
36 to the successful completion of this project; and

37

Resolution 24-08

38 WHEREAS, S E Davis Construction, LLC, has proposed a preliminary budget for project
39 design, including boundary survey and topography, engineering, and architectural, structural, and
40 electrical design, in the amount of one hundred four thousand and twenty dollars (\$104,020.00).
41

42
43 NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE TOWN OF
44 LA PLATA that Brent Manuel, Town Manager, is hereby authorized to execute and deliver, on
45 behalf of the Town of La Plata, a contract agreement with S E Davis Construction, Inc., for the
46 design and build of a recreational trail and amphitheater at Wills Memorial Park, with an initial
47 expenditure for project design in the amount of one hundred four thousand and twenty dollars
48 (\$104,020.00).
49

50 ADOPTED AND APPROVED by the Council of the Town of La Plata on
51 this 26th day March 2024.

WILLS PARK PLAYGROUND

December 18, 2025

Re: Wills Park Playground (Proposal No. RFP-WPPLGRD-2025-11-07)

Dear Selection Committee,

Bliss Products and Services was built on a promise: to deliver every project with the same care, integrity, and attention to detail we'd expect in our own communities. Over the years, that promise has guided our evolution—from a regional playground equipment provider to a trusted General Contractor specializing in complex, turnkey site development.

This proposal reflects that evolution. Inside, you'll find not only our design vision and approach, but also insight into the project management systems, internal teams, and field capabilities that now define who we are.

Recent years have brought exciting opportunities. Clients are turning to us to lead projects with multiple trades, challenging logistics, and tight timelines. We've stepped in to rescue delayed installs, bring order to complicated multi-site rollouts, and deliver results where others fell short. In response, we've expanded our internal capabilities:

- A dedicated **Project Management** team to streamline coordination from start to finish
- A growing **Field Services Department** trained to handle real-time adjustments and sitework
- A robust **Quality Control Process** to ensure fewer surprises and smoother closeouts

This isn't just about installing playground and recreation equipment. It's about building something lasting—with accountability, craftsmanship, and a team that takes pride in the entire process.

Bliss Products and Services acknowledges receipt and review of RFP No. RFP-WPPLGRD-2025-11-07 and any issued addenda.

We look forward to the opportunity to work with the Town of La Plata and hope this proposal gives you a clear picture of the value our team brings to the table.

Sincerely,

Gregg Bliss
President

Company Overview

Overview

Bliss Products and Services, Inc. (BPS) has been in the recreation business since April 1984, incorporated in Florida. With over forty years of success in an ever-changing industry, BPS has continued to expand not only territory but capabilities as well. Our growth can be directly attributed to our customer-first sales philosophy. BPS believes in a low-key and educated approach to each opportunity. Our team has experience in the design of all types and sizes of recreation and play environments. BPS offers site evaluations, budgetary proposals, custom designs, and installation services for a wide range of products. BPS can utilize the newest technologies available and support our staff and clients through multiple platforms.

BPS currently has an internal office that staffs a total of ten people. In addition, we have sixteen sales representatives and four employees who work remotely.

Construction

BPS is not simply a sales agency. BPS has contractors licenses in ten states and currently holds a GC license in the State of Maryland. With combined revenues of over 50M annually, BPS has the resources available to successfully complete projects of any size and scope.

Our installers specialize in the recreation industry. From concept to creation, our installers are committed to enhancing recreational environments for everyone and are equipped to handle the largest projects our customers may have.

Staff Assigned to Project

For this project, the following people from Bliss Products will "touch" the project at some point during the process:

- Gregg Bliss, President
- Reggie Johnson, Sales Representative
- Kristen George, Marketing Director
- Jessica McCleary, Project Manager
- Amber Waters, After Sales Support
- Heather Smith, Order Entry
- Donna Moore, Accounting

Company Overview

Banking, Bonding, and Insurance

- BPS has bonding capabilities of over 3M dollars
- BPS carries insurance over 5M dollars (COI attached for reference)
- Specific banking, bonding, and credit references are available upon request
- FEIN: 59-2413631
- DUNS: 003456428
- E-Verify: 329247

Additional Information

- BPS is a corporation.
- There is no active or pending litigation.
- There have been no legal actions taken against BPS.
- BPS have never defaulted on a contract or failed to complete any work.
- EMR Ratings:
 - 2023: .94
 - 2022: .94
 - 2021: .94
 - 2020: .94
 - 2019: .94

Project Staffing

Gregg Bliss, President

Gregg Bliss has been with BPS for over 30 years and took over as President in 2000. Since becoming President, Gregg has been responsible for expanding the company's territory to over 12 states and more than doubling both the sales staff and installation crews. Gregg is the qualifying agent for contractors' licenses in over five states, including holding a GC license in Florida. Gregg is CPSI certified and graduated Summa Cum Laude from Tarleton State University with a Bachelor of Science degree in Industrial Technology.

Reggie Johnson, Sales Representative

Reggie has had a long career in the technology sales industry and came to Bliss in 2024 eager to learn the playground and recreation industry. He has worked for companies such as Amazon Web Services (AWS) and Comcast Business, helping out the business community any way possible. Reggie has secured multiple projects since starting with Bliss and continues to thrive in his Maryland and Delaware territory.

Kristen George, Marketing Director

Kristen started her recreation career with BPS, joining the team in 2015. She quickly climbed the ranks to become BPS' Bid Manager and now oversees the entire bid and quoting department. Her department sent out over 500 bids for the 2021 year and is still able to maintain an attention to detail that is unlike any other. Providing our customers with in depth information, accurate lead times, and comprehensive playground designs ensures our bids and quotes alike are sent out with as much detail and care as possible.

Jessica McCleary, Project Manager

Jessica has extensive knowledge of the construction industry and may years of experience managing projects varying in scope and size. Joining the BPS team over two years ago, Jessica has expanded her construction knowledge into the recreation side and has been able to efficiently manage the Installation Team at BPS to include subcontractors and internal staff.

Design Narrative

The proposed playground design for Wills Memorial Park is rooted in the Town of La Plata’s rich history and identity, while delivering a modern, inclusive, and engaging play environment for children of all ages and abilities. Drawing inspiration from La Plata’s origins as a railroad town and its continued celebration of local landmarks, the design thoughtfully blends storytelling, play value, and accessibility into a cohesive, community-focused destination.

Historic Inspiration & Community Identity

La Plata was founded in the late 1800s with the arrival of the Pennsylvania Railroad, a defining moment that shaped the Town’s growth and character. This historical connection served as the foundation for the overall playground theme. The proposed design incorporates train-inspired elements throughout both play areas, allowing children to explore, imagine, and learn while connecting with the Town’s heritage in a meaningful way.

Interpretive panels integrated into the play structures highlight several well-known La Plata landmarks, including the La Plata Train Station Museum, Port Tobacco Players Theater, La Plata Farmers Market, and other notable community destinations. These elements not only reinforce the Town’s history but also encourage intergenerational engagement, sparking conversation between children, caregivers, and visitors as they move through the play space.

5–12 Play Area: Landmark-Driven Adventure Play

The 5–12 play structure is anchored by a Denali Tower, selected intentionally to echo the prominent water tower located adjacent to the existing playground. Rising as a visual focal point within the park, the Denali Tower creates a sense of arrival and landmark presence, much like the Town’s water tower does within the surrounding landscape.

From this central tower, children can explore a variety of elevated and ground-level play experiences that promote physical challenge, social interaction, and imaginative play. Enclosed slides, climbers, bridges, and accessible routes provide multiple ways to engage, ensuring children of varying abilities can play together. The structure’s height and design encourage confidence-building and exploration while maintaining safety and visibility for caregivers.

Design Narrative

2–5 Play Area: Early Childhood Exploration

The 2–5 play structure is designed as a train-inspired play experience scaled specifically for younger children. Featuring lower deck heights, age-appropriate climbers, slides, and crawl-through elements, this area supports early childhood development while reinforcing the overall theme.

The train motif is reinforced through graphic panels, window details, and storytelling signage that introduce younger users to La Plata's history in a playful, approachable way. This area emphasizes imaginative play, sensory engagement, and social interaction while maintaining clear sightlines and easy access for caregivers.

Inclusive & Sensory Play Opportunities

In alignment with the Town's goal of delivering a custom inclusive playground, the design incorporates elements that support children of all abilities.

Accessible routes, transfer points, sensory panels, and varied play types ensure that children with mobility, sensory, or cognitive differences can actively participate alongside their peers.

Sensory-rich components such as tactile panels, visual details, and interactive features are intentionally distributed throughout both play areas, encouraging exploration and engagement without isolating inclusive elements into a separate space.

Aesthetic & Material Palette

The proposed color palette combines modern, natural tones with vibrant accent colors to complement the surrounding park environment while maintaining strong visual interest. Durable, low-maintenance materials are specified throughout the playground to ensure long-term performance, safety, and sustainability in accordance with Town standards.

A Destination for the Community

This design transforms Wills Memorial Park into more than just a playground — it becomes a place where La Plata's history, families, and future come together. By celebrating the Town's railroad roots and local landmarks through thoughtful design, the proposed playground creates a unique sense of place that is unmistakably La Plata.

The result is a visually striking, inclusive, and meaningful play environment that honors the Town's past while serving the needs of today's families and future generations, fully aligning with the goals and requirements outlined in the Town of La Plata's Request for Proposals.

Fees/Pricing Schedule

All pricing is on the Excel spreadsheet included in our submittal email.

The Town of La Plata is seeking a partner to design a custom play environment for the citizens who visit Wills Park Playground.

Challenges and Solutions

BPS can help The Town navigate and overcome any challenges because of our vast experience in similar situations. BPS wants to take the time on the front end to understand all aspects of a project, from the most minute to the largest and most complicated. Our team is prepared to go above and beyond to provide the partnership we all will be proud of for years to come.

On Site Meetings/Design Phase - BPS understands the need for on-site meetings and will make this project a priority in terms of scheduling those. The City is going to be able to work with our team to design their playground to fit its specific needs and space, so these on-site meetings are critical to fully understanding the extent of the scope of work at each location.

Duration of Installation - Equipment today is much more complex from an installation standpoint than in years past. Playground standards have evolved and become more rigorous with time. These two factors combined just means that BPS' installers will take great care and attention to detail to ensure the playgrounds and surfacing are installed correctly. BPS will manage each site's installation to ensure progress, minimize delays, and provide feedback as the installation takes place.

Meeting Playground Standards - We will discuss with the Town the various standards that must be met when providing and installing a playground for public use.

The challenges and potential solutions outlined above are for reference and consideration only. BPS is not suggesting that these should be concerns, but just to bring light to issues that may need review when selecting a partner. The Town deserves a partner that looks at the entire project.

Project Management

Project Management

BPS believes that Project Management consists of four major factors: identifying and managing customer expectations, clear communication, and coordination with all parties, scheduling accurate and attainable milestones, and accountability.

Expectations

BPS believes in actively listening to the customer to understand the project entirely. These in-depth conversations allow for a design that truly embodies the customers' desires, budgets, and dreams! Honest up-front communication is invaluable to reducing stress, containing costs, avoiding disappointments, and ensuring the final proposal is precisely what the customer envisioned.

The list below, while not all encompassing, highlights some ways expectations are addressed and managed.

- Scope of Work - A detailed scope of work helps each party understand their responsibilities and expected project outcome.
- Completion Time Frame - BPS provides a detailed project schedule based upon projected start and end dates. Documenting milestones, deliveries, and critical path identifiers keeps all parties informed and focused on the ultimate end goal of a new playground area opening on time and without incident.
- Playground Design - Our customers deserve a design that is unique, engaging, cost-effective, and compliant. BPS provides a site layout, 3D design, color options, and additional information as required to illustrate the result of the project clearly.

Communication

Communication of all types is of the utmost importance to the success of any project. While each project is unique and will have its own requirements, the list below embodies some of the many ways BPS uses to communicate each phase of project development.

On Site Meetings

Both pre-bid meetings and site review meetings are geared toward gathering knowledge crucial to the successful design and installation of the area. A site

Project Management

Communication cont'd

review can provide information not readily identified on paper (i.e., surrounding neighborhood aesthetics, access/egress requirements, potential utility lines, and overhead obstructions).

Construction meetings, when required by the project or warranted due to size and scope, help to facilitate coordination with other trades, ensuring scheduling milestones are on track and identify any potential issues to be immediately addressed.

BPS requires a final walk through of each job regardless of size and scope. The walk through allows us to interact with the customer and address the work that has been performed. During the walk through, the customer will be provided with any additional items per the contract (i.e., owner's kit, touch up paint, etc.) and will be required to sign off on the area as accepted.

Scheduling

Effective scheduling is one of the essential tools used to ensure the completion of each project. The parameters of each job dictate the amount of detail required for effective scheduling. Larger projects that span several weeks will require an in-depth look at milestones, interdependencies, resource allocation, simultaneous task completions, and coordination of deliveries to ensure the installation proceeds in the most efficient manner.

Accountability

While different individuals may be responsible for various aspects of project completion, at all stages our customers can expect their sales and management staff to be available and accountable for each milestone. The information below represents some of the more relevant areas and how they impact overall job satisfaction.

BPS understands that clearly identifying each site's unique characteristics and looking at the broader picture with regards to the site demographics, challenges, aesthetics, etc. helps to recognize and plan for solutions to any potential challenges. Utilities, access points, soil/digging conditions, etc. are easier to manage when they are noted on the front end of any project.

Project Management

Accountability cont'd

While there is no way to know every nuance of each project, utilizing this in-depth form helps to keep job data consistent and thorough and minimize job site disruption.

- Equipment Ordering and Production - BPS confirms equipment layout, color selection, and scope of work by requiring a final signature/approval on the playground design before placing the order. During production, our playground manufacturer, Play & Park Structures, has a 42-step quality assurance program. This constant quality monitoring and review minimizes downtime in the field due to incorrect or missing parts.
- Installation - By combining the reports and written communication discussed earlier in this section, BPS monitors its installers daily to ensure each job is progressing and on-time. This proactive approach helps us keep constant communication with our customer on job status, completion time, and many other factors. Our installers are required to get a final sign off sheet while still on site and prior to final payment. This again, ensures that any issues identified were dealt with quickly and thoroughly so that the customer can be confident the area is safe, compliant, and ready to be enjoyed before we leave any project.

A successful Project Management Plan helps to successfully manage all four most critical aspects of each project!

Quality Control Plan

Planning

- Provide chart/plan to execute project to the client/customer with tentative installation dates and milestones

Vendor Management

- Compile scope definition for various vendors and installers
- Issue contracts to those vendors and installers
- Communicate timelines of deliveries to customer

Quality Management System

- Establish standard work process and procedures
- Turnover checklist
- Perfect photo log/training manual
- Deployment workflow with milestones and pain points

Closeout/Client Delivery

- Flash notifications to general contractors
- Remote based approval process
- Closeout tied directly to financial system

Quality Assurance During Install

App Entry

- Selections prompt GC for deliverables
- Milestone Completion data from GC approved by Construction Manager

Audit Center

- Deliverables reviewed while GC is on site
- Minimize effort to engage vendor for corrections
- Audits performed FIFO with time tracking

Site Corrections

- GC corrects non-service impacting items concurrently
- Maximizes GC efficiency and output per day

Client Delivery

- Upon completion of GC acceptance, closeout materials are delivered

Timeline

Below is a general outline of how we currently view the timeline of this project to go forward. However, we understand that there are timelines and deadlines that the Town may want us to adhere to, so this timeline is also very flexible.

We have been very successful in managing the manufacturing and installations of small and large play/recreation projects in the past and will ensure this one will follow suit, with timeline completion and accurate installation. By continuously having open communication, the entire process will be seamless. Timelines are based on estimated completion times, weather permitting. Note: This timeline does not include time it takes to pull a permit, should one be required.

Our manufacturer, Play & Park Structures, is currently working on an eight-week lead time.

Week Count	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
Receive NTP															
Playground Manufacturing															
Playground Shipping															
Demolition, Site Preparation															
Installation of New Playground and Surfacing

Install Warranty

Bliss Products and Services, Inc. (BPS) hereby warrants and guarantees the installation work for a period of one year from the date of substantial completion.

BPS will repair or replace to the satisfaction of the Owner any or all work that may prove defective in workmanship or materials within the guarantee period together with any other work which may be damaged or displaced in so doing. This guarantee does not cover equipment that is not maintained properly. It also does not cover ordinary wear and tear, vandalism, or an other unusual abuse or neglect of the property.

Partnership with Play & Park

Since 1976, Play & Park Structures' (PPS) mission has centered around developing products, programs, and services that enhance classroom learning, create environmental awareness, promote physical activity, and build communities.

PPS has an appropriate play solution for a full spectrum of needs and aesthetics, including parks, schools, early childhood centers, churches, and community centers. Whether the project calls for a traditional playground or a creatively themed play space, the variety of styles and materials offered allows you to choose the perfect playground to complement your vision.

PPS is committed to meeting and/or exceeding ASTM safety standards to help create safer play environments for children. By having the industry's best warranty, PPS provides protection and assurance for your playground investment.

With PPS being a PlayCore business unit, we have access to one of the best manufacturing facilities in the industry. Our facility is ISO 9001 and 14001 certified and our products meet all industry standards. With a more than 400,000 square foot facility, PPS is well equipped to handle orders of large or small quantities.

BPS and PPS began their partnership over 14 years ago. We have since formed a great working relationship with PPS, creating open lines of communication between the two companies' internal teams. This direct communication allows us to ensure that the order goes from BPS to PPS without issues.

Play & Park's Standards/Safety

ISO 14001

We are proud to be ISO 14001 certified for our manufacturing facility in Fort Payne, AL, also referred to as the "Green Certification". ISO 14001 is an internationally recognized standard for environmental management, measurement, evaluation, and auditing. As an ISO 14001 certified company, Play & Park controls the impact of our activities, products, and services by implementing an Environmental Management System (EMS) that meets international standards, but is specific to the play products being produced.

ISO 9001

An industry certification process issued by International Organization for Standardization. It is used to measure manufacturing standards and to certify company compliance with quality control systems covering design, development, production, installation, inspection, and testing.

ADA

Access Board (The United States Architectural and Transportation Barriers Compliance Board) has completed the Accessibility Guidelines for Play Facilities as set forth in the Americans with Disabilities Act of 1990. The Final Report of the Regulatory Negotiation Committee is available via the internet.

IPEMA

In the interest of public playground safety, the International Playground Equipment Manufacturer's Association (IPEMA) provides a third party certification service whereby a designated independent laboratory, Detroit Testing Laboratory, Inc. (DTL), validates an equipment manufacturer's certification of conformance to ASTM F1487, Standard Consumer Safety Performance Specification for Playground Equipment for Public Use, except sections 7.1.1, 10, and 12.6.1; to CAN/CSA Z614, Children's Playspaces and Equipment, except clauses 9.8, 10, and 11, or both. The use of corresponding logo in Play & Park structures catalog signifies that PPS has received written validation from the independent laboratory that the product(s) associated with the use of the logo conforms to the requirements of the indicated standard.

Play & Park's Standards/Safety

ASTM

ASTM International is an independent and world-renowned developer of technical standards utilized in testing a multitude of products, ASTM's F15.29 committee met regularly for over a decade in the continual development of the F1487 Standard Consumer Safety Performance Specifications for Playground Equipment for Public Use. The original standard, F1487-93 was published in 1993 and subsequently replaced by the current version F1487-07a, published in May 2007.

CPSC

The Consumer Product Safety Commission (CPSC) is an independent agency within the United States Federal Government with the authority to inform the public of current product safety performance information and recommended practices. The CPSC first published their guidelines for public playgrounds in 1981 and have updated their publication several times since then. The current CPSC Handbook for Public Playground Safety, publication #325, is an excellent guide for owners and operators of public play environments.

Play & Park's Quality

ADA Approved Holes

All Play & Park Structures decks and ramps have an ADA-compliant cluster punch to allow children of all abilities to play together. Transfer platforms feature large holes for gripping assistance when accessing structures.

Our Plastics

The color pigments used in our plastics have one of the highest ratings for light stability, providing the best color stability for color fastness. There are multiple color choices available for natural and modern settings.

Decks and Hardware

- Innovative curved bracing on each deck assures durable and sturdy decks.
- Plastisol and thermoplastic options are available for decks
- Tamper resistant hardware aids in the prevention of corrosion and helps reduce vandalism.

Play & Park Structures Warranties

Play & Park Structures provides warranties on all materials and workmanship for one year, excluding vandalism. In addition, Play & Park Structures offers:

Limited Lifetime Warranty* on:

- Supermax, Duramax, totMax, Boulderscapes, Skyline, and Horizons uprights
- Hardware

20 Year Limited Warranty on:

- Recycled Plastic Lumber

15 Year Limited Warranty on:

- Rotationally molded products
- Metal decks, pipes, rings, rails and loops

10 Year Limited Warranty on:

- Redwood and pressure treated wood
- Integrated shade products
- Site furnishings
- Fiberglass signs

5 Year Warranty on:

- Swing Seats
- Nylon-covered cable net climbers and components
- HDPE Panels

3 Year Warranty on:

- "C" Springs for spring bouncers

1 Year Warranty on:

- All other Play & Park Structures products including moving parts
- Nylon rope products
- HDPE components
- Powder coated parts

All warranties specifically exclude damage caused by vandalism; negligence, improper installation or improper use; changes in appearance resulting from weathering; scratches, dents or marring as a result of use.

Warranties are valid only if products are installed and maintained in accordance with Play & Park Structures instructions and use approved parts

At Play & Park Structures, we stand behind our product and are committed to the highest level of customer satisfaction.

For the purpose of this warranty, lifetime encompasses no specific term of years, but rather that Seller warrants to its original customer for as long as the original customer owns the Product and uses the Product for its intended purpose; that the Product and all parts will be free from defects in material and manufacturing workmanship.

PROPOSAL DOCUMENTS

In order to qualify for this Project, Contractors must submit all information requested in the following pages.

CONTRACTOR INFORMATION

Proposals must adhere to the form of these Proposal forms and content of this RFP. Proposals will not be evaluated unless all parts of the Proposal form are submitted in a complete package. The information set forth is the minimum required in order to qualify for consideration.

Contractor Name Bliss Products and Services, Inc.

Address 1631 S. Sweetwater Rd.

Town, State, Zip Lithia Springs, GA 30122

Contact Gregg Bliss, President

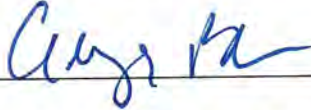

Person Phone _____

Number 800-248-2547

Email Address info@blissproducts.com

PROPOSAL FORM PRICE AUTHORIZATION

By signing this Bid form, such action certifies that the Contractor has personal knowledge of the following: That said Contractor has examined the RFP and specifications, carefully prepared the Bid form, and has checked the same in detail before submitting said Bid; and that said Contractor, or the agents, officers, or employees thereof, have not, either directly or indirectly, entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive Proposing in connection with this Bid. That all of said work will be performed at the Contractor's own proper cost and expense. The Contractor will furnish all necessary labor, tools, machinery, apparatus and other means of construction in the manner provided in the applicable specifications, and at the time stated in the contract. The Town will supply materials unless otherwise noted. The undersigned, being a reputable Contractor and having submitted the necessary pre-qualification forms, hereby submits in good faith and in full accordance with all specifications, attached or integral, his/her Bid:

Name of Contractor Bliss products and services, inc.
Authorized Signature 
Name and Title of Signatory Gregg Bliss, President
Date 12/16/25

Type of Organization (circle one): Corporation Partnership Proprietorship

SEAL:
